**FUNDSQUARE**  
MARKET INFRASTRUCTURE

# MiFID2 regulation pushes Asset Managers to provide Target Market information in a more structured way

Are Asset Managers able to ensure that their distributors are using the right and updated data?

In order to ensure the appropriate level of governance during the sales process of the product manufactured, the information dissemination process needs to be efficiently monitored and documented.

Fundsquare's platform is today the leading communication hub for transmitting data and documents.

- **600** companies using e-file.lu for regulatory compliance
- More than **1.5 million** KIIDs are transmitted annually
- **90,000** prospectuses and financial reports
- Fund information from **2,450** promoters
- Feeding data to **150** distributors and distribution platforms
